A car accident causes detours on West Third Street, the main road leading towards the University. No injuries were reported. However, the accident blocked the road, causing traffic delays. The incident occurred on Nov. 28 around 1:30 p.m. The car accident was related to UNCP on the campus, and it was an approved UNCP survey. The survey is part of a larger study to understand campus safety and transportation needs. The study aims to improve the campus environment and ensure the safety of students and visitors.
