According to an email sent by University Police, two students were charged with a controlled substance violation and underage consumption of alcohol on April 1. The incident took place in Pine Hall.

Students have until the day of classes to enroll, but early enrollment is highly encouraged to ensure all classes offered now will still be offered when the session begins. Undergraduate students pay $55 per semester hour in-state tuition and $108 per semester hour out-of-state tuition. Student fees are $54.10.

The Apple Authorized Campus Store is having a last chance to buy Macs. The sale is available only to students, staff and faculty members at UNCP with a valid UNCP ID card and banner ID.

The Apple Authorized Campus Store has now added iTunes Gift Cards for $15, $25 and $50. Also available are books on how to work with iTunes and iMovie, along with an endless amount of software.

Since the opening of the Apple Authorized Campus Store at the UNCP Bookstore in October 2008, students may schedule a class. If the class does not meet the maintenance minimums, it could be cancelled then or it could go through the first day in hopes that others will register. Dr. Gash said.

“In event courses are cancelled, we will do everything possible to make sure they get another class.” If the student absolutely needs it for graduation, it is possible for them to take an independent study class, Dr. Harrington said.

For those looking to keep on track or to advance further, summer school is the way to go.

“Encourage people to attend. It’s a deal,” Dr. Gash said.

The UNCP Bookstore is having a sale on Macs. The sale is a last chance for students to buy Apple products such as the MacBook, MacBook Pro and iMacs at a low price. The MacBooks are $100 to $150 off, the MacBook Pros are $200 off and the iMacs are $30 to $100 off.

It’s also convenient for students due to the bookstore being on campus. And it’s also an educational discount. With a purchase of your Apple product, you also receive a free HP All-in-One printer.

“We are working on redesigning the area this summer with more demos, models, more accessories, signage, etc,” Ellis said.
